Body Mass Index

Ugh! You are underweight. Your BMI score 14.84 is very less than the target range 21-24.9.

Hip Waist Ratio

Oops! Your HW ratio is higher than normal! Your current HW ratio is 1.35 it should be below 1.0 and waist size to 28 inches

Weight

Ugh! You are underweight. Your current weight 38 kgs is less than the target range 59-64 Kgs

Disease Specific Risks0

Moderate Risk

Multiple lifestyle disease

Osteoporosis

Breast Cancer

Guidelines

Educate yourself and your loved ones about - what is physical as well as mental good health and how to achieve it.

Stay tuned to your body and recognize itâ€™s needs - have adequate and timely rest and sleep, exercise regularly, follow a good diet, drink plenty of water and practice meditation daily.

Maintain a healthy BMI. Adopt a healthy diet - high in vegetables (esp green leafy ones) & fruits and low in carbs, sweets, salts and fats. Eat more proteins & whole grains (atta) and reduce refined carbohydrates (maida). Include some nuts and seeds in your diet. Ensure you eat foods rich in vitamins and minerals - citrus fruits (orange, lemon, and sweet-lime), yoghurt/curd, turmeric, green vegetables, beetroot and pomegranate, sesame seeds, flax seeds, nuts, raisins and dates. Avoid full-fat milk and full-fat dairy products to the extent possible. Minimize processed, deep-fried and junk food. Drink at least 8 to 10 glasses of water per day. Remember you can eat what you like but moderation/balance is the key.

Exercise regularly, at least 45 mins of mild exercise every day and preferably 150

minutes of

cardiovascular exercise per week. Create daily routines with adequate (7-9 hours) of sleep at

appropriate hours. Try to follow the sun, rise early and do not sleep too late. Avoid screen time before

sleeping and try to keep a min 3-hour gap between your dinner-time and sleep-time.

Take care of your mental health at home and the workplace. Be open to talking, about any issue you may have, to your close family members and friends. Practice deep breathing exercises and guided or self-meditation daily. Schedule a few minutes of daily fun time for your hobbies - listening to music, singing, gardening, going for nature walks or playing with pets and spend some happy time with your family & friends.

Increase your exposure to the sun- take walks or perform your daily aerobic exercises outdoors in the mornings. Increase consumption of milk and dairy products but make sure it is not full fat. Vitamin D supplements, with or without calcium are also safe to take after consultation with a physician.

Limit the number of your sexual partners. Always practise safe sex - use condoms.

If you are young, delay your first sexual intercourse until your in late teens or older.

Get your thyroid test done every year.

You seem to have / are likely to have metabolic syndrome (multiple lifestyle diseases).

Take your health very seriously, consult a doctor and follow the advice religiously.

Get your Bone Density, Ca and Vit B 12, D tests done every two years.

Vitamin D and calcium supplements can be started after consulting a doctor. If you have been taking steroid therapy for a long time, disclose and discuss the same with your doctor.

Always get unexplained bleeding/excessive bleeding from small wounds or during

periods examined by

a doctor.

Educate yourself and your family about the signs of breast cancer and learn to detect them - the best way is to perform a self-breast examination every month, just after your periods. You should get your breast checked by a physician every year. If you are taking or have been advised to take oral contraceptive pills or hormone replacement therapy, discuss the risks vs benefits of the same with your doctor.

Certain families have a gene mutation which increases the risk of getting breast cancer. Please take Smaarogya's screening test to evaluate if you should get tested for BRCA gene mutation.

Schedule a mammogram (an x-ray of the breast) and USG " breast every 2 years to screen for breast cancer.

Certain families have a gene mutation which increases the risk of getting breast cancer. Please take Smaarogya's screening test to evaluate if you should get tested for BRCA gene mutation.

Get screened for cervical cancer by taking HPV testing along with PAP smear test every 6 years.

Consult an obesity specialist to manage your obesity with medical nutrition therapy, and be open to medicines or surgery if needed. In addition, you would need to undergo behavioural therapy to evolve a healthy lifestyle.

Get your insulin test done every year.

You have the risk of having/developing asthma, please take Smaarogya's asthma screening test immediately to ascertain if any further actions need to be taken.

Thereafter, if normal, take the test every year.

Perform regular pranayama or breathing exercises - breathe slowly through the nose with controlled inhalation, hold the breath and exhale. Also, practice meditation and yoga daily. Keep your house clean to reduce dust and mold. Bathe and groom your pets regularly, if you have any. Remove thick and heavy carpets and curtains and replace them with light, cleanable materials. Not only quit smoking but try to avoid secondhand smoke. Wear face masks if you are outside in polluted areas.

Avoid prolonged sun exposure for more than 30 minutes, and apply sunscreen to exposed areas of your body, especially when outside in the sun. Keep your skin clean and maintain personal hygiene. Consult your doctors about the kind of soaps you should use. Moisturise your skin regularly. Do not scratch your skin, and use over-the-counter or prescribed -anti-allergy medicines to reduce itching. Wear comfortable cotton clothes.

You have the risk of having/developing chronic lung disease, please take Smaarogya's chronic lung disease screening test immediately to ascertain if any further actions need to be taken.

Always get unexplained bleeding/excessive bleeding from small wounds examined by a doctor.

Smoke is dangerous for you. Quit, if required ask for professional help to quit smoking. Avoid secondhand smoke. Reduce consumption of alcohol. If you work in an environment with continuous exposure to dust and particles, wear proper Personal Protective Equipment.

Stop any type of oral consumption of tobacco, pan, and paan masala. Quit smoking, avoid secondhand smoke and reduce alcohol consumption. Maintain good oral health - brush twice a day and keep your gums clean. If you have ill-fitting dentures or sharp

teeth, consult your dentist to get them checked. Visit your dentist for screening every year.
